"Practicing is beautiful"

Two groups of about 30 pupils used the "mallette".

Number one : a group of "premières"

After working on photographs by Dorothea Lange, illustrating the Depression era in the USA in the 1930's, they had to choose one and describe it carefully. The main rule to be respected was a 3 mn sound recording.

Number two : a group of "seconde"

After studying London in the 17th century, they had to make an account about the Plague and the Great Fire.
